

Mobile Monetization & Mobile Marketing

Welcome to Monsan
Our solutions, for you

Hello!

2001

It was the year that **Stanley Kubrick** set his wonderful Space Odyssey in.

It was also the year that we founded Monsan.

We did so with the absolute conviction that we could offer you a new space for the development and integration of digital platforms.

Like Zarathustra, we spent many years learning our trade to be able to create efficient systems for mobile payments and marketing to cover all of your needs.

We are proud to be able to say that so far we have been able to achieve the two main goals that have driven us from the start: increase our clients' cost effectiveness and profits using the technological tools and platforms that we have developed, and grow internationally by offering solutions wherever they are needed.

Nonetheless, and as is only natural, you can rest assured that our team of over 80 professionals is still constantly striving to improve on your behalf.

It is our pleasure to welcome you to Monsan,

Jordi Sans

Monsan is connecting
you to our world
from Barcelona

[See detailed map](#)

All of these aspects
are of interest to us:

- 30.3 M € turnover
- 100 partners
- 50 mobile operators working directly with us
- 30 countries in which we offer payment services
- 3M annual transactions
- R&D and a working relationship with the world's leading manufacturers
- Data Center with an SLA of 99%
- High Availability (HA) virtual environment

But what you will find truly interesting
are the key features of our operation:

Integration:

We develop tailored apps that are easily integrated into any operating system, service provider and country.

Transversality:

Starting from your goals, we develop ideas of how to satisfy your client's needs.

Control:

24x7x365 and a CRM portal at your disposal for complete control of all activity.

Assistance:

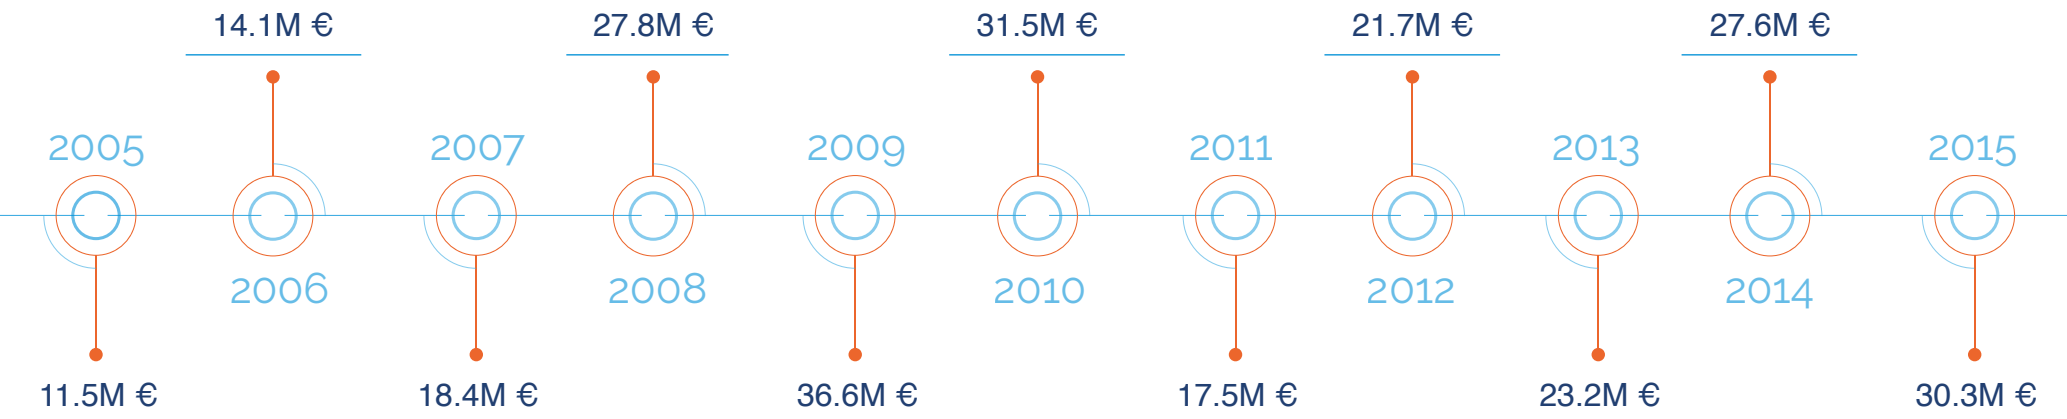

Always at your side to produce the required documentation for service providers.

Connection:

We connect you with telephone service providers, markets, the target audience, clients.

Profitability:

Qualitative and quantitative profitability. Because that's what it's all about.

Mobile Monetization

Mobile Monetization

Monetization and micro-payment systems that offer contrasting advantages and opportunities to your users, business and developers.

As they are easy and fast to implement through our API's, you can configure them best to your interests.

Direct Carrier Billing

Micro-payments from an application with a single click and without leaving the app.

- The price of the service is invoiced to the user by its telephone service provider.
- Single purchase method or subscriptions.
- With just one click.
- No credit card or bank account needed.
- No leaving the App-Webpage.
- Without identification form.
- Api available.

SMS Premium

Micro-payments through the sending and receiving of a short text message.

- For mobile phones, web-pages and apps for any service provider and price.
- No credit card needed.
- No leaving the App-Webpage.
- Easy HTTP web Integration.

Premium Voice Lines

Smart networks to provide the best information or service and receive the highest return.

- The routing of calls is optimized.
- Make the servicing of a high volume of simultaneous calls possible.
- Avoid dropped calls.
- Maximize the effectiveness of promotional and publicity campaigns.
- Strengthen the specialized and personalized service to the client.

Mobile Marketing

Mobile Marketing

Monsan systems and platforms help you design effective marketing campaigns and offer the best customer service in the industry.

SMS Bulk

The best and most effective marketing system. Campaigns that can be shaped for any purpose through a Standard HTTP or SMPP connection.

- Send offers, catalogues, coupons, announcements, surveys, whatever you need that is large scale, immediate, personal, trustworthy, and still get the best results.
- Delivery confirmation and campaign rapport.

Audio Bulk

Your telephone marketing campaigns, done by making multiple simultaneous calls to mobile and home numbers.

- Easy and intuitive management from a web panel.
- You just pay the delivered calls.

Business Voice Lines

Monsan lines for a telephone service and easy, fast and efficient customer service.

- Adapted to every situation: free for whom he calls, shared cost or minor cost that in national call.

IVR/VOIP

Monsan platforms for responding to calls and pre-set automatic audio speeches that optimize service, time and productivity.

- Ideal for customer service departments.
- IP (SIP) worldwide connectivity.
- Great saving in maintenances related to traditional infrastructures.
- Virtual switchboard available with multi management options.

Your best option
in mobile payment systems
and mobile marketing
